Systems Engineer | IT Infrastructure | Cloud Administration | Cybersecurity

PROFESSIONAL SUMMARY

Systems Engineer with 5+ years of experience in IT infrastructure, cloud administration, virtualization, cybersecurity, DevOps tools, and enterprise support. Experienced in Windows Server, VMware, Active Directory, GPO, Linux, cloud platforms, GitHub, Docker, Kubernetes, CI/CD, SQL, and application development. Hands-on personal projects include published Android applications, demonstrating software development, product delivery, system integration, and user-focused design. Strong background in technical documentation, troubleshooting, staff training, and IT service delivery.

CORE QUALIFICATIONS

Windows Server 2016/2022	Active Directory & GPO	VMware / Virtualization
Cloud, DevOps & GitHub	IT Service Delivery	Application Development
Security Hardening	System Integration	Technical Training

TECHNICAL SKILLS

• Cloud Platforms:
AWS (EC2, IAM, VPC, Security Groups), Microsoft Azure (VMs, Networking), Google Cloud Platform.

• DevOps & Tools:
Docker, Kubernetes, Jenkins, Ansible, Git, GitHub, CI/CD pipelines.

• Data & Reporting:
Power BI coursework, dashboards, data visualization, data processing, and SQL reporting.

• Operating Systems:
Linux (Ubuntu, CentOS), Windows Server, Windows Desktop Support.

• Networking & Infrastructure:
TCP/IP, DNS, DHCP, Subnetting, SSH, NAT, Virtualization Technologies.

• Programming & Scripting & DB:
Python (basic), PHP, VBA, Microsoft Visual Basic, Microsoft Visual C++, Flutter, Bash scripting, SQL, PostgreSQL.

• Monitoring & Logging:
System monitoring, troubleshooting, and log analysis.

• Cybersecurity:
Wireshark, Nmap, Linux / Kali Linux, Wazuh, Suricata, Nessus, OpenVAS. Splunk, Autopsy and Burp Suite.

RECENT PERSONAL PROJECT

FlashCards: Learn English - Published Android Application | Personal Project

- Designed, developed, and published an Android language-learning application on Google Play, demonstrating mobile development, product delivery, user-focused design, and app deployment workflows.

- Implemented learning features such as flashcards, pronunciation/listening practice, speaking practice concepts, user authentication, and structured study screens.
- Google Play: https://play.google.com/store/apps/details?id=com.flashcards.puffin

Daily Agenda | Android Application | Personal Project

- Published a daily planning Android app focused on agenda organization, reminders, and task management.
  Google Play: https://play.google.com/store/apps/details?id=com.dailyagenda.dailyagenda

Key Vault | Android Application | Personal Project

- Published an Android application focused on storing and organizing sensitive user information.
  Google Play: https://play.google.com/store/apps/details?id=com.keyvault.vault

PROFESSIONAL EXPERIENCE

Technical Support Intern | eStruxture Data Centers • *Jul 2026 - Sep 2026*

Internship - Montreal, Quebec, Canada - On-site

- Provided hands-on IT support in a data center environment, troubleshooting Windows laptops, software, hardware, printers, and user access issues.
- Deployed and configured Windows laptops, installed corporate applications, and prepared devices for new and existing employees.
- Used KACE for software deployment, inventory management, scripting, system maintenance, and troubleshooting.
- Supported endpoint security operations using ESET Protect, ESET Full Disk Encryption, BitLocker, and security policies.
- Assisted with application deployment and troubleshooting for Avigilon, CCure, BioConnect, 8x8 Work, and other enterprise applications.
- Performed software and hardware inventory reviews, identified unsupported applications, and assisted with remediation activities.

Professional Development & Technical Studies | Longueuil, Quebec, Canada - *Oct 2024 - Jun 2026*

- Pursued two AEC programs at Champlain College: Cybersecurity (graduated February 2026) and IT Cloud Administration (graduated September 2026).

Freelance Information Technology Consultant - *Apr 2019 - Sep 2024*

- Provided freelance IT systems administration, cloud technology support, and software development services, combining infrastructure management with application development.
- Administered and supported Windows Server 2016/2022, Active Directory, Group Policy (GPO), Microsoft 365, and VMware virtualized environments, focusing on reliability, performance, and security.
- Developed and maintained software applications using C#/.NET and Microsoft SQL Server, including database management, troubleshooting, and business application improvements.
- Supported cloud-connected environments, Microsoft 365 services, identity and access management, system configuration, and infrastructure troubleshooting.
- Used PowerShell and scripting techniques to automate IT administration tasks, improve operational efficiency, and streamline technical processes.

- Provided Level 2 and Level 3 technical support, resolving Windows, networking, application, permissions, and infrastructure issues.
- Worked on software integration, system maintenance, performance optimization, technical documentation, and the implementation of reliable IT solutions.
- Combined software engineering and IT infrastructure expertise to support business operations, improve system functionality, and deliver practical technology solutions.

Core Technologies: C#, .NET, SQL Server, Windows Server, VMware, Active Directory, Group Policy, Microsoft 365, PowerShell, IT Infrastructure, Cloud Administration, Software Development, REST APIs.

Process Engineer | PDVSA | Petroleum Refinery - *May 2014 - Apr 2019*

- Coordinated operational information and supported process documentation for plant activities across multiple departments.
- Prepared technical and routine reports to support monitoring, compliance, and decision-making.
- Maintained process records and collaborated with teams to improve workflow efficiency and control standards.

ERP Analyst | PDVSA | Petroleum Refinery — *Mar 2013 – May 2014*

- Supported ERP operations, data maintenance, user requests, and testing activities to ensure reliable business system performance.
- Assisted with issue resolution, documentation, and coordination of system updates.

Computer Trainer | MPPE | Ministry of Education — *Jan 2000 – Mar 2013*

- Prepared training materials, tracked learner records, and provided user support for computer systems and software.
- Delivered organized administrative and technical support in educational environments.

EDUCATION & CERTIFICATIONS

AEC - IT Cloud Administration (Graduated Sep 2026) - Champlain College - Saint-Lambert, QC, Canada

AEC - Cybersecurity: Prevention and Intervention (Graduated Feb 2026) - Champlain College - Saint-Lambert, QC, Canada

- System Engineer (bachelor's degree) – Santiago Mariño Polytechnic University, Venezuela
- Teacher Training (bachelor's degree) – National Open University, Venezuela
- Computer Technician (DEC) – Isaac Newton University Institute, Venezuela
